Adobe Photoshop CC 2018
Fundamentals

Oaks Training®
A Division of GIL Consultancy Pte Ltd
Building Foundations for Excellence

This 3-day fun filled course offers lots of hands-on practice opportunities. It will focus on building a solid foundation (work flow) of your Photoshop skills in photo-editing and file management working with RAW files. Concepts are explained in layman terms to enhance understanding.

The only one of its kind that will cover Adobe Bridge CC, Adobe Camera RAW and Photoshop CC 2018 all in one course. A complete suite of integrated applications that offers graphic professionals an all-in-one file management to final product.

This course will show you how to import your files straight off from your storage card to your PC and how to effectively manage and organise your files, as well as assign ratings and keywords straight from Adobe Bridge CC.

You will learn how to perform noise reduction, brightness, contrast, colour adjustments and sharpening techniques, essential pre-editing process in Adobe Camera RAW.

Go further in enhancing your beautifully captured photo in Photoshop CC 2018. Learn how to process, retouch and enhance photos with confidence. You will become more proficient and more productive in photo editing, your processed photo will also be ready for use in most work situations and personal use or precious shared memories.

This Course is For

Learners with zero to little knowledge of using Adobe Photoshop CC 2018.

Public Sector: Division 1, 2 & 3
